

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# REPORT OF RAILROAD COMMISSIONER.

---

TO THE GENERAL ASSEMBLY OF THE STATE OF VERMONT :

The undersigned respectfully submits the following Report upon the condition and management of the Railroads in this State, for the current official year.

## I.

### LEGISLATION RESPECTING THE VERMONT RAILROADS.

The eighth Section of the law of 1855, which establishes the office of Railroad Commissioner, requires him to "report what further legal provisions should, in his opinion, be adopted in relation to railroads." In compliance with this requirement, the undersigned, in his report to the General Assembly at its session in 1858, recommended the enactment of various regulations for the government of the railroads in Vermont. So far as the undersigned is advised, no direct action was had by the General Assembly upon the expediency of adopting any or all of the suggestions of the report, and as the opinions of the Commissioner are unchanged with respect to the powers of the legislature, the principles which ought to govern its action on this subject, and the importance and propriety of most of the changes proposed by him in the laws affecting railroad corporations, he deems it his duty to renew his former recommendations, with one or two exceptions, and presents such further conclusions as have been derived from longer observation, and increased acquaintance with the great interests involved in the conduct of our railroads.

The special provisions proposed by the Commissioner are :

1. That he be authorized and required to prepare a revision and compilation of the existing laws of this State relating to railroads, with or without the acts of incorporation, for publication.

It is believed that the public convenience would be promoted by such a revision, and it is recommended, that provision be made by law for preparing the same, and reporting it to the General Assembly at its next session.

2. It is recommended that the Commissioner be empowered to order the repair of bridges and other railroad structures, whenever he shall deem the same necessary for the safe and convenient transportation of passengers over the lines of the railroads.

The general experience of the American States abundantly shows that a power of this nature ought to be lodged in some body other than the Directors and Managers of the railroads. Although no fatal accident is known to have recently happened in Vermont from the insufficient state of repair of the roads, yet it is certain that bridges on some of them are in a condition to excite apprehensions of danger, and that there are many points on different lines, where the embankments of the road and the slopes of deep cuts, are imperfectly secured against the effects of frost and rain, and where, of course, at every change of season there is a liability to very calamitous accidents. The criminal negligence of directors in neighboring as well as distant States, has, within the past year, occasioned great loss of life, from want of repairs obviously necessary, and there seems to be no good reason why the legislature should not take measures to prevent accidents and injuries, for which there can never be an adequate redress.

3. Most of the railroads in Vermont run cars over the entire distance between terminus and terminus without change, and during the past season cars have run, without change, from Boston to the northern terminus of the Rutland and Burlington railroad. On many roads the same thing is done for much greater distances, and there is no valid reason why the Vermont railroads should not all afford to their passengers the same convenience. There can be no change of cars without annoyance to passengers, or without risk of mistake of trains and loss of baggage, and vexatious accidents of

this sort are continually occurring at all stations where such changes are made. The trifling advantages to the companies from making these changes are no compensation for the serious evils thereby occasioned to the public, and the Commissioner is of opinion that all railroad companies should be required to transport passengers without change of cars from terminus to terminus. Upon a former occasion, the undersigned adverted to a gross case of abuse of this nature, and he thinks it his duty again to call attention to it as an instance of a palpable violation of charter obligations, which the guardians of the public ought no longer to tolerate. He refers to the change which travellers upon the Central railroad passing to and from Lake Champlain and its borders are compelled to make at Essex Junction. The change in question is made not for any purpose of necessity or convenience to the Central railroad or to passengers upon it, but solely to accommodate the Vermont & Canada road, and in violation of the implied obligation of the Central road to convey passengers over its route without unnecessary annoyances of this or of any other sort. The people of Western Vermont having occasion to communicate with the capital and other portions of the State upon the line of the Central railroad have been exposed to this inconvenience ever since the construction of the roads which meet at Essex, for no reason except that it suited the purposes of the Vermont & Canada road to interrupt the travel upon the Central road at that point, and the failure of the Vermont & Canada road to fulfil the conditions of its charter by the construction of an independent route to the Lake is made the excuse for a wanton disregard, on the part of the Central railroad, of duties, the due performance of which constitutes the sole consideration for the privileges secured by its charter.

The Trustees of the 1st Mortgage Bonds of the Vermont Central railroad in their reply to the eleventh question proposed by the Commissioner, Appendix, p. 33, say that "a change of cars at Essex is deemed necessary for the proper accommodation of the travelling public." The undersigned does not deem it necessary to make any remarks upon the character of this reply further than to say that but a moderate amount of intelligence is required to perceive, that whatever advantage may accrue to the railroads from the arrangement, the 'travelling public' is in no respect 'accommodated' by

submitting to an annoyance which might be prevented by running another car. The saving of this expense is an obvious, though a very inadequate, motive for making the change, and it is easy to see that a stronger one might be found in the power of thus giving the combined roads an unfair and unlawful advantage over a rival route, by exposing through passengers who might choose that route to inconvenience and vexation.

4. Although the particular inconveniences complained of last year in the break of connection between the Vermont Central and the Rutland and Burlington railroads, and which led to a special inquiry by the General Assembly, have been removed by mutual agreement, the Commissioner is still of opinion that power ought to be lodged somewhere to prevent the repetition of such abuses. The history of the past sufficiently shows that the public rights in the enjoyment of the use of railroads cannot safely be entrusted to interested hands. The existing statutes provide a remedy only in the case of difficulties of connection by passage of *cars* from road to road, not for cases of connection by transfer of *passengers*, and the law is evidently defective.

There is another point belonging to this head which in the opinion of the undersigned demands legislative interference. It is that of the connection between Vermont railroads and roads chartered by other States, and, of course, not under the control of the laws of Vermont. It is believed that the Vermont railroads ought not to be permitted to lose their regular connections in the State by waiting for trains delayed beyond their time on roads out of the jurisdiction of this State. A case which fell under the notice of the Commissioner since the last report will serve for illustration. The Rutland & Burlington afternoon train from Rutland for the North was due at Burlington in time to connect with the Vermont Central evening train for the East. On the occasion referred to, several passengers, desiring to take the train last referred to, arrived at Rutland from the South and West before the time fixed for the departure of the afternoon train for the North. The Boston train connecting with the Rutland & Burlington road at Bellows Falls, was detained by an accident in New Hampshire, and did not reach Bellows Falls until two hours after time, and the train on the Rutland & Burlington

road instead of leaving Bellows Falls at the regular hour waited until the arrival of the Boston train. The passengers who were waiting at Rutland insisted on their right to be forwarded to Burlington in time to connect with the Central train, but the agents of the Rutland & Burlington road refused to send them on until the arrival of the train from Bellows Falls. In consequence of this delay the passengers referred to missed the connection at Burlington, and, to say nothing of loss of time, were subjected to an expense, no doubt, exceeding what it would have cost to run a special train through at the regular hour. The company, the undersigned doubts not, was liable for damages to the persons so detained, but the amount suffered by each was too small to induce a resort to a court of law, and thus, in this, and other similar cases, the wrong remains unredressed. The commissioner thinks that a compliance of railroad companies with their engagements of this sort, ought to be secured, not by leaving individuals to a remedy which is worse than the injury, but by a penalty sufficient to furnish a more effectual motive than railroad managers are apt to find in the sense of right or the fear of civil responsibilities.

5. It is believed that railroad companies ought to be allowed to charge passengers who neglect to buy tickets at the offices a small extra fare, by way of compensation for the inconvenience and risk of loss in receiving money in the cars. On the other hand, as every person in the habit of railroad travelling must have observed, it is the custom of many roads to open their ticket offices only a very few minutes before the departure of trains, and consequently travellers arriving by other routes have not time to attend to their baggages, and procure tickets. It is recommended that the ticket-agents and baggage-masters be required to be in attendance at their posts for the sale of tickets and checking of baggage, for one full half hour next before the departure or passage of every passenger train.

6. The Commissioner thinks that more efficient means ought to be adopted for giving notice of the arrival of trains at stations, and thus preventing the carrying of passengers beyond their destinations, which is an accident of very frequent occurrence. A proper method would be to place over the forward door on the inside of every car

immediately after passing a station a tablet with the name of the next station, conspicuously painted upon it.

7. The Commissioner believes that legal provision ought to be made for securing to creditors and stockholders of railroads free and unrestricted access to all books, accounts, contracts and proceedings of the companies, and of all trustees, assignees or other persons acting in behalf of them. No honest purpose can be subserved by the denial of such information to persons interested in obtaining it, and it is recommended that the directors, clerks, officers and agents of railroad companies be required to exhibit all books or other evidences relating to the pecuniary affairs of the companies to any stockholder, or party litigant against such company, on demand.

8. It is evident, from the number of points above presented for consideration, and the multitude of ever varying details involved in them, that the legislature, in sessions so brief as those of the General Assembly of Vermont, will seldom have leisure for the full examination of them and for judicious action upon them. Serious inconveniences might sometimes arise from the adoption of experimental measures, which, however inexpedient they might prove in actual practice, must remain in force until repealed by a subsequent legislature, and it is probably for these two reasons that the General Assembly has hitherto refrained from exercising its powers in many cases of corporate abuses where a relief has been urgently demanded. In the opinion of the undersigned the proper remedy is in the creation of a Board to which, under proper restrictions, the general controlling power of the State over the management of railroad companies shall be delegated, and it is believed that there exists no sound constitutional or prudential objection to the bill reported to the General Assembly at the October session of 1855, by the very able Board of Commissioners appointed for that purpose.

The undersigned is persuaded that the adoption of the plan recommended by that Board, would prove a more complete and satisfactory remedy for existing or apprehended evils than any special legislation whatever. The Commissioners, however, ought to be invested with larger powers than were conferred by the bill in question, and authorized to make such regulations with respect to modes and times of connection and running as the public *convenience* as, well as *safety* should require.

### II. FORFEITURE OF CHARTERS.

In pursuance of the requirements of the statute of 1855, the Commissioner reports that the Vermont and Canada Railroad Company has neglected to comply with the provisions of the Act of 1858, extending the time for forming a connection between that road and the Rutland and Burlington railroad, and consequently the act of incorporation of said Vermont and Canada Railroad Company, has become void. For a history of the proceedings of the company on this subject the Commissioner refers to the answer of William P. Parrott to the nineteenth question of the Commissioner on pp. 9, 10 and 11 of the Appendix hereunto.

The undersigned is informed that a petition will be presented to the General Assembly at the present session in behalf of said company for further legislation on this subject. The Commissioner does not deem it within his province to express an opinion on the expediency of such legislation, but, referring to what he has said in this and a former report on the connection at Essex Junction, he thinks it his duty to say that a further extension of the liberal period originally allowed for the fulfilment of its charter obligations ought not to be granted, except upon such conditions as will prevent the company from longer obstructing the free communication between Eastern and Western Vermont, and thereby becoming a continuing and perpetual nuisance to all persons who have occasion to pass, by the Central route, from one boundary of the State to the other.

### III. GENERAL MANAGEMENT OF RAILROADS.

The Commissioner is happy to say that with the exception of the abuses he has pointed out, the general management of the Vermont railroads has been satisfactory during the past year, while the improvement in the financial condition, the enlarged facilities, and especially the measures for the extension of the routes of others, are highly creditable to the energy and ability of those who are intrusted with their direction. The Commissioner believes that the best good of the stockholders and creditors of the roads, as well

of the commonwealth at large, will be most effectually promoted by a strict supervision of the operations of the companies by the constituted authorities of the State, and that such legislation as will ensure the fullest compliance with all the express and implied obligations of the companies to the public will be most conducive to the advantage of all concerned, except peculators and speculators, the furtherance of whose private interests is not one of the appropriate functions of the legislature of Vermont.

#### IV.

#### REPORTS OF RAILROAD COMPANIES.

No report has been received from the Western Vermont Railroad Company. The Commissioner is informed by the late Receiver of that company, that from the 1st of January last "the Troy and Boston Railroad Company has been in possession" of that road. Notice of the change was not given to the Commissioner until too late a period for him to call on the party in possession for the usual returns, but the questions and blanks were forwarded to the office of the Company at the same time as to the other railroad offices in the State.

The returns received are hereunto attached.

All which is respectfully submitted.

GEORGE P. MARSH,  
*Railroad Commissioner.*

Burlington, October 13, 1859.

# APPENDIX.

## A.

### QUESTIONS

*Addressed to the several Railroad Companies in Vermont, by the Commissioner.*

1. What changes, if any, have taken place in the persons, whether trustees, assignees, lessees, mortgagees, or directors, concerned in the management of the \_\_\_\_\_ Rail Road, since the date of the last report?
2. Please give a statement of the pecuniary condition of said Railroad, substantially as in the Reports of the Vermont Rail Roads for former years, setting forth particularly all salaries or emoluments and the names of the persons receiving the same; and also whether services of the nature indicated, and in amount adequate to the sums paid, according to the rates of compensation usually allowed by *solvent* Rail Road companies in New England, have been actually rendered by each of said persons.
3. What sums have been paid or contracted to be paid to legal advisers and attorneys, since the date of the last report, and to what persons have such sums been paid or promised?
4. Has any bonus, gratuity or compensation of any sort been paid or promised to be paid out of the funds of the company, or of the creditors or other persons beneficially entitled to the same, or has any benefit or advantage been conferred upon any person at the cost of the company, for any services, real or pretended, other than such as appear from your answers to preceding questions?

5. Do you know or have you probable cause to believe that any trustee, director, or other officer or agent of said company or any of the persons who control and manage the affairs of said company, are in any manner secretly interested in any contracts made or executed in behalf of said company since the last report? If so, set forth the particulars.

6. Have all purchases and contracts made on account of said company or its managers, so far as lies within your knowledge, been concluded at fair and reasonable prices, and with a *bona fide* purpose in making the same, on the part of said company and its agents and managers? If not, set forth the particulars.

7. Has said Railroad been kept constantly under the supervision of professional engineers, and if so what are the names of such engineers and their respective sections; and have all repairs and reconstructions recommended by such engineers been promptly made? If not, for what reason have such repairs been neglected or delayed?

8. What provision is made for the inspection of the track; is it inspected before the passage of each passenger train; and if so, by what agents and how long before the time of the train; and if not, at what intervals?

9. Are any important repairs contracted for or proposed during the coming year, and if so, what?

10. What persons, or classes of persons, are allowed free passage over said road, or passage at reduced rates, and what are the powers and duties of the conductors in respect to free passages?

11. For what reasons of necessity or of convenience are passengers required to change cars at \_\_\_\_\_

12. For what reasons of necessity or convenience are passengers by the evening trains detained at \_\_\_\_\_ for the night, instead of proceeding to the respective termini of the road, without detention?

13. Have the passenger cars of your road uniformly made the connexions indicated by their advertisements, and if not, how many have been the failures, and for what causes?

14. Is your road operated independently of other roads, and if not, to what extent, and under what circumstances, are trains on your road

allowed to be detained by delays of trains on other roads? Set forth particularly the contracts or arrangements by which your trains may be detained by such delays.

15. Have other Vermont companies, conterminous or connecting with your road, been ready and willing to run trains at such hours as to connect with your road in a manner advantageous to the travelling public and mutually convenient to both roads? If not, set forth particulars.

16. Have such other companies manifested a disposition to afford you reasonable facilities with respect to the transfer of freight from one line to another? If not, set forth wherein.

17. Is it in your opinion necessary or expedient that Rail Road conductors should be invested with other or greater powers for the purpose of securing good order among passengers in the cars?

18. Can you suggest any legislation, general or special, advantageous to the interests of the Railroads and the public?

## B. ANNUAL REPORT

OF THE VERMONT & CANADA RAILROAD COMPANY FOR THE YEAR ENDING  
JUNE 30, 1859.

---

### TABLE A.

#### STOCK AND DEBTS.

The capital stock of the Company is in amount, .... \$1,348,500  
Represented by 13,485 shares.

This Company has no funded debt.

There are claims against the Company unsettled,  
amounting to a few thousand dollars, the exact  
amount being in dispute.

### TABLE B.

#### COST OF CONSTRUCTION.

The cost of construction is represented by the amount  
of the capital stock, viz : \$1,348,500  
The Directors of the Company have no control over the running of the Road, but refer to the report of the Trustees of the Vermont Central Railroad for the details required by this table.

In reply to tables C to K inclusive, we report that this road is run and managed by the Trustees of the first mortgage bonds of the Vermont Central Railroad Co., under an order of the Court of Chancery, and that we have not information to enable us to report the required details.

TABLE C.

EQUIPMENT.

The Vermont and Canada Railroad Company owns no equipment of any kind, that being furnished under the lease by the Vermont Central Railroad Company.

TABLE D.

ESTIMATED VALUE OF THE PROPERTY OF THE COMPANY.

TABLE E.

CHARACTERISTICS OF ROAD.

Reference is made to the report of the trustees of the First Mortgage of the Vermont Central.

GRADIENTS AND ALIGNMENT.

Reference is made to the report of the Trustees of the First Mortgage of the Vermont Central Railroad.

EQUIPMENT.

This Company has no equipment.

TABLE F.

BUSINESS OF THE YEAR.

This road is run by the Trustees of the Vermont Central Railroad.

## ANNUAL REPORT OF THE

## TABLE G.

**EXPENSES OF MAINTAINING ROADWAY AND REAL ESTATE.**

Same answer as to Table F.

## ANSWERS TO THE COMMISSIONER'S QUESTIONS.

The following answers to the special questions from the Commissioner are respectfully submitted.

ANSWER TO QUESTION 1.—No change has taken place in the Board of Directors since the date of the last report. Mr. John G. Smith of St. Albans, and Mr. Joseph Clark of Milton, are now receivers, in the place of Mr. John Smith, deceased, and Mr. George M. Dexter, who resigned as a trustee of the first mortgage of the Vermont Central Railroad.

ANSWER TO QUESTION 2.—The Vermont and Canada Railroad is now run by the trustees of the first mortgage of the Vermont Central Railroad, viz : Lawrence Brainerd and John G. Smith of St. Albans, and Joseph Clark of Milton, appointed by the Court of Chancery receivers pending the application of the Vermont and Canada company for possession under the lease of that road to the Vermont Central Railroad, and the directors of the Vermont and Canada Railroad have no control over their own road, or any person employed in managing the same, and the two reports of the Central and Canada roads have been heretofore made as the report of one line of road. The only expenditures made by this Board are those incident to the protection of the property, the preservation of the rights of the Corporation, and in compliance with the requisition for building the branch into Burlington. A detailed statement of the account of expenditures is annexed and reference made thereto in answer to the third and fourth questions.

In answer to the questions five to eighteen, inclusive, reference is made to the above answer and to the report of the Receivers.

ANSWER TO QUESTION 19—All the steps in relation to forming a connection with the Rutland and Burlington road at Burlington according to the act of General Assembly at the last Session thereof, respecting such connection, have been taken, which were within the control of the Board of Directors, and so far as their authority and the means of the Corporation at their disposal extended, they have exerted themselves to conform to the provisions of that act.

The following action has been had on this subject by the Stockholders and other persons acting in behalf of the Vermont and Canada Railroad Company.

On the 29th day of December, 1858, the act in addition to and amendment of the Charter of the Vermont and Canada Rail road Company, approved November 18, 1858, was accepted in accordance with the provisions of the said act.

On the 19th day of January 1858, a vote was passed by the Directors authorizing the President to cause a survey of the route indicated by the said act, to be made at as early a day as in his opinion may be deemed practicable. On the 23d day of February the examination of the route was commenced, and on the 2nd of March a surveying party was put upon the line, and their survey continued with as much regularity as the season would permit, until the 24th of the same month when the preliminary survey was completed and the first estimate was made.

Subsequently a small party was engaged from time to time until the 21st of June in making such further surveys as were deemed expedient to obtain the best final location for the branch.

On the 19th day of May 1859, a special meeting of the Stockholders was held at Northfield and a report relative to the survey and location of the branch was presented and read, and votes were passed authorizing the Directors to locate and build the branch into Burlington, to borrow money to pay the cost of construction, and, if necessary, to mortgage the road as security for the re-payment of the monies borrowed for that purpose.

On the 2nd of June, by vote of the Directors, a committee was appointed to make contracts for building the branch and to make application to the Chancellors for an order upon the receivers for funds sufficient to enable the Vermont and Canada Railroad Company to comply with the conditions of the act of the General Assembly. The committee under this vote made contracts upon very favorable terms for the construction of the whole work ready for the cars, run, excepting the land damages.

On the 7th day of July, 1859, a special meeting of the Stockholders was held at Northfield. At this meeting votes were passed rescinding the authority given at the meeting on the 19th of May for raising money on the credit of the Company, and the Directors were instructed not to go on with the building of the branch.

An application was made to the Chancellor in due form, as required by the vote of the Directors, and the hearing appointed for the

1st day of July, at which time the application was resisted, and a further hearing postponed to the 20th of July, at which time a further hearing was had, which resulted in the refusal of the application.

The Directors having no means at their disposal belonging to the Company, have taken no further steps towards the construction of the branch.

ANSWER TO QUESTION 20.—The bridges referred to are not under our management and control, and we respectfully refer the Commissioner to the Receivers for an answer to this question.

STATE OF VERMONT, }  
WASHINGTON COUNTY, ss. }

I, William P. Parrott, depose and say that the facts set forth, and statements made in the foregoing report, which has been signed by me, are true and correct according to the best of my knowledge, information and belief.

Signed,

WM. P. PARROTT.

Subscribed and sworn before me this 3d of September, 1859.

C. H. JOYCE, *Master in Chancery.*

Amount now expended for the same, .....
Tools, &c., .....

Details of the account were not kept so as to answer the above questions.

Total cost of Road and Equipment,.....\$8,402,054,92

## TABLE D.

## ESTIMATED VALUE OF PROPERTY OF COMPANY.

Value uncertain.

## TABLE E.

## CHARACTERISTICS OF ROAD.

Length of road,.....	166 miles.
"    "    completed,.....	166 "
"    "    side tracks,.....	7 1-2 miles about.
Weight of rail per yard,.....	54 to 64 lbs.
Width of earth cuts at grade,.....	26 feet.
"    "    rock "      "      ".....	26 "
Slope of earth cuts,.....	1 1-2 to 1
"    "    rock "      "      ".....	1 to 4
Width of embankments at grade,.....	say 14 feet.
Number of locomotive engine houses and shops,.....	6
"    "    engines,.....	42
"    "    passenger cars,.....	26
"    "    baggage, express and mail cars,.....	9
"    "    freight cars,.....	784

## CHARACTER AND LENGTH OF BRIDGING.

	No. of Structures.	No. of Spans.	Length of bridging in feet.
Piles and Stringers,.....	1		2,800
Piles and Cribs with stringers,	2		4,590
Truss bridging, 50 feet span and under,.....	42	52	1,603
Truss do. from 50 to 100 ft. span,.....	6	6	354
Truss do. from 100 to 150 ft. span,.....	32	57	8,103
Truss do. 150 ft. span & over,.....			
Draw bridges and draw boat,.....	2		339
Totals,.....	85	116	17,790

Number of road crossings at grade,.....	87
"    "    "    "    above and below grade,.....	31
Number of cross ties per mile,.....	2,059
Average length and size of cross ties,.....	7 1-2 feet 6 x 9 inches.
Kinds of timber used for cross ties,.....	hemlock, tamarack and burnetized wood.
Chairs—number per mile,.....	about 580
Wrought or cast iron,.....	most of them cast.
Average weight of cast iron chair,.....	21 lbs.
"    "    "    "    wrought iron, .....	6 1-2 and 13 1-2 lbs
Whole number of single switches on main track.....	93
Kind of switches used.....	crank

## GRADIENTS AND ALIGNMENT.

Level, number of miles, .....		Part of the notes having been burned, answer to these questions cannot be given until a new survey is made.
From 20 to 30 feet, number of miles, .....		
" 30 to 40 " " " .....		
" 40 to 50 " " " .....		
" 50 to 60 " " " .....		

Maximum grade, ..... main line 45 feet.

Amount of straight line miles, ..... (Vt. Central,) 85 miles

    " of curved, ..... " " 34 "

Maximum radius, ..... 11,460

Minimum " ..... 1,146

Sum of ascents going in one direction, }  
" " " opposite direction, } ..... notes burnt

## BUILDINGS AND FIXTURES.

Passenger houses, .....	29
Freight houses, .....	17
Engine houses, .....	6
Repair shops, .....	2
Water stations, .....	32
Dwellings, .....	7
Wood sheds, .....	44
Turn tables, .....	5
Other buildings, as follows:	
Car houses, .....	2
Stalls for Locomotive Engines, .....	32

## EQUIPMENT.

Number of Locomotives owned by the Company on the 30th day of June, 1859 :

Engines and Tenders.	Under 16 tons.	16 to 20	20 to 25	25 to 30	30 Tons and over.
In use in good repair,.....			11	14	
In use requiring slight repair,.....			1	4	
In use requiring heavy repair,.....			3	2	1
Not in use in good repair,.....					
Not in use requiring slight repair,.....					1
Not in use requiring heavy repair,.....	1				3
Worn out,.....					1

Number of Cars owned by the Company, June 30, 1859 :

First class 8 wheel passenger cars in good repair, .....	12
"      "      "      "      wanting repair,.....	14
Second "      "      "      "      in good repair,.....	0
"      "      "      "      wanting repair, .....	0
Baggage, expresss and mail caas in good repair,.....	5
"      "      "      "      wanting repair,.....	4
Covered freight and cattle 8 wheel cars, in good repair,.....	344
Covered freight and cattle 8 wheel cars, wanting repair,.....	273
Platform 8 wheel cars, in good repair,.....	50
Other freight cars,.....	67
Gravel cars,.....	20
Iron cars,.....	37
Derrick cars,.....	3
Hand cars,.....	40

## TABLE F.

## BUSINESS OF THE YEAR.

Miles run by passenger trains,.....	219,782
Miles run by freight trains, .....	379,500
Miles run by gravel and construction trains,.....	8,582
"    "    "    wood trains, .....	9,398
Number of passengers carried in cars,.....	150,177
"    "    miles traveled by passengers, .....	5,877,470 1-2
"    "    tons of freight carried in cars one mile,..	20,541,455 <sup>463</sup> <sub>200</sub>
Average rate of speed of ordinary passenger trains, including stops, .....	about 24 miles per hour.
Rate of speed of same when in motion,..	" 28 "
Average rate of speed of express trains, including stop,.....	" 26 "
Rate of speed when the same are in motion, "	28 "
Average rate of speed of freight trains, including stops, .....	" 9 "
Rate of speed when the same are in motion, "	12 "
Rate of fare charged first class through passenger, per mile, .....	from 2 to 3 1-4 cents.
Rate of fare charged first class way passenger, per mile,.....	about 3 1-2 cents.
Average rate of fare charged second class passengers, per mile,.....	about 1 1-2 cents.
Rate per ton per mile charged on 1st class through freight.	
"    "    "    "    2d	" "
"    "    "    "    3d	" "
"    "    "    "    4th	" "
"    "    "    "    1st	" way "
"    "    "    "    2d	" "
"    "    "    "    3d	" "
"    "    "    "    4th	" "
Rates vary from 1 1-4 to 5 cents per mile per ton for freight according to the season.	

## TABLE G.

## EXPENSES OF MAINTAINING ROADWAY AND REAL ESTATE,

For the year ending June 30, 1859.

Ordinary repairs of road bed and railway, .....	\$54,674 63
Extraordinary repairs of road bed and railway, including widening cuts and embankments, rebuilding and re- pairing masonry, ballasting, &c., .....	0,000 00
Cost of iron rails used in repairs, including chairs and spikes, and cost of laying down, .....	94,154 27
Cost of repairs of iron rails, .....	15,172 06
Number and kind of cross ties used for renewals, .....	
Cost of the same, including the expense of laying down, 18,197 41	
Insurance and taxes on real estate, .....	0,000 00
Repairs of bridges, and tending union Boat and Draws,..	21,174 66
"    " stations, .....	10,112 36
"    " fences, .....	3,303 99
"    " masonry, .....	1,039 42
<hr/> Total, .....	\$217,828 80

## COST OF REPAIRS OF MACHINERY.

Repairs of engines and tenders, .....	\$63,743	80
Depreciation of the same, .....		.
Repairs of passenger and baggage cars, .....	14,446	03
Depreciation of the same, .....		.
Repairs of freight cars, .....	51,861	27
Depreciation of the same, .....		.
Repairs of tools and machinery in shops, .....	10,351	89
Oil used about workshops, .....	1,581	65
Fuel and waste, .....	4,704	39
Clerks, .....	000	00
Other items in details as follows:		
Repairs of gravel cars, .....	254	33
"    " hand " .....	1,171	81
"    " snow ploughs, .....	152	28
Total, .....		\$148,267 45

## TABLE H.

## COST OF OPERATING THE ROAD.

For the year ending June 30, 1859.

Fuel, including cost of preparing the same, .....	\$71,539	17
Number of cords of wood used by same,.....	23,889	
Number of cords of wood used at stations, ....	3,350	
Number of cords lost by fire, .....	000	
Number of gallons of oil, .....	14,254	
Number of pounds of waste, .....	32,985	
Cost of oil and waste for engines and tenders, .....	5,684	99
"    "    "    "    " passenger and baggage cars, ...	694	50
"    "    "    "    " freight cars, .....	5,558	08
Loss and damage of goods, .....	4,423	87
Loss and damage of baggage, .....	266	46
Damage for injuries to persons, .....	128	73
Damages to property, including fire, and animals killed		
on the road, .....	588	75
Office expenses and stationery, .....	2,191	60
Agents, .....	21,745	21
Clerks, ticket master and master of transportation, ....	4,483	92
Labor, loading and unloading freight, .....	8,836	18
Porters and watchmen, .....	3,937	45
Switchmen, .....	3,594	08
Wood and water station attendance, .....	0,000	00
Conductors and baggage men, .....	14,012	31
Brakemen, ....	8,717	17
Enginemen and firemen, .....	25,295	66
For salaries of Trustees, President, Directors, Secretary,		
Treasurer and Superintendent,.....	18,642	66
For printing, stationery and office expenses, .....	0,000	00
" law expenses .....	3,016	05

**Other expenses in detail as follows:**

Miscellaneous expenses passenger department, .....	1,987	76
"        "    freight        "      .....	2,690	81
Advertising, mails, Express, telegraph and other expenses not previously included, ....	12,463	98
<hr/>		
Total, .....	\$220,499	39

**RECAPITULATION OF EXPENSES.**

Maintaining roadway, .....	217,828	80
Repairs of machinery, .....	148,267	45
Operating, .....	220,499	39
Total, .....	\$586,595	64

TABLE I.  
EARNINGS, RECEIPTS AND PAYMENTS,

 G. MERRILL, *Superintendent for Trustees*.

STATE OF VERMONT, }  
 WASHINGTON COUNTY, ss. }

L. Brainerd, Joseph Clark and J. G. Smith, Trustees, and G. Merrill, Sup't, depose and say that the facts set forth, and statements made in the foregoing report, which has been signed by them, are true and correct according to the best of their knowledge, information and belief.

Signed,

L. BRAINERD,	Trustees 1st Mort. Bonds Vt. Cen. R. R. Co.
JOSEPH CLARK,	
J. GREGORY SMITH,	

G. MERRILL, Sup't. for Tr'ees. Vt. Cent. R. R.

Subscribed and sworn to before me this 19th day of September, 1859.

J. B. HUTCHINSON, *Master in Chancery*.

## ANSWERS TO THE QUESTIONS OF COMMISSIONER.

ANSWER TO QUESTION 1.—In the direction of the Vt, Central R. R. Company, the following changes have been made. J. Smith President, has deceased, and W. C. Smith, of St. Albans, has been elected Director in his stead.

In the Board of Trustees 1st Mortgage Bonds, the following changes have taken place :

J. Smith of St. Albans deceased, and J. Gregory Smith of St. Albans, appointed in his place. G. M. Dexter of Boston, resigned, and Joseph Clark of Milton, Vt., appointed in his place.

ANSWER TO QUESTION 2.—The statement of the pecuniary condition of the road may be found in Tables A. to J., which include the year ending June 30, 1859. The Road is now in the possession of the Trustees above named, acting under the direction of the Chancellor, and no allowance has as yet been made by him for compensation or salaries.

ANSWER TO QUESTION 3.—Table D. in report.

ANSWER TO QUESTION 4.—No bonus or gratuity has been paid to any parties to our knowledge.

ANSWER TO QUESTION 5.—We do not.

ANSWER TO QUESTION 6.—Know nothing to the contrary.

ANSWER TO QUESTION 7.—The road has been under the charge and supervision of the Superintendent, and all the repairs and re-constructions that are necessary have been promptly undertaken.

ANSWER TO QUESTION 8.—There are two Division Road Masters, whose duty it is to inspect the track. The Section men are required to inspect the track immediately preceding the passage of the night passenger trains, and in the morning before the passage of any train.

ANSWER TO QUESTION 9.—Repairs of bridges and the re-construction of some of them are proposed and contracted for.

ANSWER TO QUESTION 10.—Conductors are not allowed to pass any except heads of departments and train men free. Clergymen are entitled to and receive half fare tickets. Season and excursion tickets are in some instances sold.

QUESTION 11.—For what reasons of necessity or of convenience are passengers required to change cars at Essex and at Northfield?

ANSWER TO QUESTION 11.—A change of cars at Essex is deemed necessary for the proper accommodation of the travelling public; also at Northfield to give an opportunity to inspect, repair and clean the cars.

ANSWER TO QUESTION 13.—The passenger cars have not to our knowledge failed of a connection this year, except in one or two instances.

ANSWER TO QUESTION 14.—Trains on this road wait for trains from connecting roads, unless in extraordinary instances.

ANSWER TO QUESTION 15.—There has been no difficulty or complaint to our knowledge, this year.

ANSWER TO QUESTION 16.—Know nothing otherwise.

# D.

## ANNUAL REPORT.

OF THE ATLANTIC AND ST. LAWRENCE RAILROAD COMPANY FOR THE  
YEAR ENDING DECEMBER 31ST. 1858.

### ANSWERS TO THE QUESTIONS OF COMMISSIONER.

ANSWER TO QUESTION 1.—None except in the Directors, two Directors having been elected in place of others withdrawn.

ANSWER TO QUESTION 2.—See annexed sheets for particulars.

ANSWER TO QUESTION 3.—None, except it may be in some suits in which the Company has been a party, and in those cases, only the usual Attorney's fees.

ANSWER TO QUESTION 4.—None, to the knowledge or belief of the Directors.

ANSWER TO QUESTION 5.—The Directors have no knowledge of any such interest, nor do they believe any Officer in the management, is so interested.

ANSWER TO QUESTION 6.—The Directors answer the above question in the affirmative, not doubting its correctness.

ANSWER TO QUESTION 7.—The line of Road within the States is under the supervision of D. Stark, Esq., a professional and experienced Engineer, and so far as the knowledge of the Directors extends, his recommendations for repairs and re-constructions have been observed.

ANSWER TO QUESTION 8.—The foreman of each section of track repairers passes over his section before the passage of any train, in the morning, and the repairers are on the line during the day attending to their prescribed duties.

ANSWER TO QUESTION 9.—Large expenditures are making in the re-construction of bridge masonry, and in replacing the old bridges by new structures, the most important with iron—at the close of the present year nearly all the old bridges will be replaced by new. For imperfect rails and cross ties, new are substituted.

ANSWER TO QUESTION 10.—The subject of free passes is under the direction of the superior Officers of the Lessees, and is carefully guarded, as understood by the Directors.

ANSWER TO QUESTION 13.—The Atlantic & St. Lawrence Railroad has no connections within the State of Vermont. The trains are run with great regularity over the whole line, seldom being out of time.

ANSWER TO QUESTION 14.—See answer to 18th question.

ANSWER TO QUESTION 15.—See answer to 13th question.

ANSWER TO QUESTION 16.—See answer to 13th question.

ANSWER TO QUESTION 17.—The Directors not having the management of the line, are not prepared to offer any suggestions.

ANSWER TO QUESTION 18.—See answer to 17th question.

The Directors of the Atlantic & St. Lawrence Railroad Company, in making their answers to the foregoing questions, beg to state that, the Road being under lease to the Grand Trunk Railway Company of Canada, as set forth in a former Report, and being under the exclusive management of that Company, their information upon which their statements are based, is derived partly from their own records and files, but principally from the Officers and Agents of that Company at Portland and from their books and accounts there kept; and though they are not personally cognizant of many of the facts and state them from information thus derived and not wholly within their own knowledge, they have no doubt of the correctness of the statements made. As the books of the Company have been from the first, and are now kept in a method to conform to the requirements of another jurisdiction, very many of the questions in the tables cannot be answered; and such as are answered must apply to the whole line of Road from Portland to the line of Vermont. Answers are however given as fully as the information in their possession will admit of.

The same course substantially has been adopted by the Directors in their reports to the Vermont authorities during the time this Road has been under lease, and they trust that in this case it will be satisfactory.—They have no doubt, if more explicit answers are required upon any matter, they will be readily furnished by the Lessees of the Road, so far as it is in their power so to do, intimation to that effect being given to them, or to the authorized Agents or Office on the line.

## TABLE A.

## STOCK AND DEBT.

Capital stock, authorized by charter, .....	\$4,000,000
Amount paid in,.....	2,494,900
Funded debt, .....	3,481,000
Floating " .....	none.

## TABLE B.

## COST OF CONSTRUCTION.

For graduation and masonry by last report,.....	Total cost \$6,219,664.32.
Amount now expended for the same,.....	
Amount for bridges by last report,.....	
Now expended for the same,.....	
Amount for superstructure, including iron, by last report, .....	
Total amount now expended for the same, .....	
For passenger and freight stations, buildings, and fixtures, by last report, .....	
Amount now expended for the same, .....	
For engine and car houses, machine shops, machinery and fixtures, by last report,.....	
Amount now expended for the same, .....	
For land, land damages and fences, by last report	
Amount now expended for the same, .....	
For engineering by last report,.....	
Amount now expended for the same,.....	
Cross ties .....	
Laborers not included in engineering.....	

A large portion of the line having been built by contract, at a stipulated sum per mile, these questions cannot be answered in detail.

## TABLE C.

## EQUIPMENT.

For locomotive engines and fixtures, (including snow ploughs,) by last report.....	.....
Amount now expended for the same, .....	\$389,804 02
For passenger and baggage cars, by last report,.....	.....
Amount now expended for the same, .....	59,934 06
For freight cars, by last report, .....	.....
Amount now expended for the same, .....	407,976 82
Gravel cars, by last report,.....	.....
Amount now expended for the same, .....	.....
Hand cars and repair cars, by last report,.....	.....
Amount now expended for the same,.....	.....
Tools, &c.,.....	.....
Total cost of equipment,.....	\$857,714 90
Total cost of road and equipment, .....	\$7,077,379 22

## TABLE D.

## ESTIMATED VALUE OF THE PROPERTY OF THE COMPANY.

No valuation of the property has been made, liberal expenditures  
being made by renewals and repairs to keep it all in good condition.

## TABLE E.

## CHARACTERISTICS OF ROAD.

Length of road,.....	149 miles.
"    "    completed,.....	149 "
"    "    side tracks,.....	about 18 1-2 miles.
Weight of rail per yard,.....	63 lbs.
Width of earth cuts at grade,.....	22 feet.
"    rock "    "    ".....	22 "
Slope of earth cuts,.....	1 1-2 to 1
"    rock "    ".....	1-4 to 1
Width of embankments at grade,.....	15 feet
Number of locomotive engine houses and shops,....	8 engine houses and 3 shops,
Number of locomotive engines,.....	42
"    passenger cars, .....	17
"    baggage, express and mail cars,.....	8
"    freight cars,.....	540

## CHARACTER AND LENGTH OF BRIDGING.

	No. of Structures.	No. of Spans.	Length of bridging in feet.
Pile, with one draw,.....	1		1519
Truss bridging, 50 feet span and under,.....	10	10	400
Truss do. from 50 to 100 ft. span,.....	4	4	240
Truss do. from 100 to 150 feet span,.....	14	14	1750
Truss do. 150 feet span and over,.....	1	2	300*
<b>Totals,.....</b>			

\* To be replaced this fall with Iron girders of 75 feet span.

NOTE.—In addition to the above Bridges, there are on the line 15 Iron bridges, 2 of which are 300 feet each in length, in spans of 75 feet; one over the Connecticut, the other over Wild River. Whole length of Iron Bridges 1210 feet.

Number of road crossings at grade,.....	63
“ “ “ above and below grade,.....	6
“ of cross ties per mile,.....	2400
Average length and size of cross ties,.....	9 ft. by 6 inch face.
Kind of timber used for cross ties,....	cedar, hemlock and haematae.
Chairs—number per mile,.....	about 600
Wrought or cast iron,.....	both, at present time, wrought.
Average weight of cast iron chairs, .....	about 20 lbs.
“ “ “ wrought iron chairs,.....	about 16 lbs.
Whole number of single switches on main track,.....	“ 100
Kind of switches used,.....	Lever,

## GRADIENTS AND ALIGNMENT.

Level, number of miles and grades to 20 feet,.....	97.27
From 20 to 90 feet, numbdr of miles,.....	17.30
" 30 to 40 " " " .....	16.14
From 40 to 50 " " " .....	
From 50 to 60 " " " .....	18.34
From 60 to 70 " " " .....	none.
Maximum grade,.....	60 feet.
Amount of straight line miles,.....	
" curved " " .....	
Maximum radius, .....	5730 feet.
" " .....	955 feet.
Sum of ascents going in one direction, North over 5 feet grade, .....	65.89 miles.
Sum of ascents going opposite direction, South, over 5 feet grade,.....	27.10 miles.

## BUILDINGS AND FIXTURES.

Passenger houses,.....	29
Freight houses,.....	22
Engine houses,.....	8
Repair shop, .....	3
Water stations,.....	17
Dwellings, .....	2
Wood sheds,.....	25
Turn tables, .....	10

## Other buildings, as follows :

Two Hotels, at Gorham, N. H., one at Island Pond, Vt.  
Ten Store Houses on wharves in Portland for Ocean and Boston  
Steamers.

## EQUIPMENT,

Number of Locomotives owned by the Company on the	day
of 18 .....	42.

	Under 16	16 to 20	20 to 25	25 to 30	30 tons and over
	tons.				
In use in good repair, .....	1	14	21	1	
In use requiring slight repair, .....		1	12		1
In use requiring heavy repair, .....				1	
Not in use in good repair, .....				1	
Not in use requiring slight repair, .....					
Not in use " heavy repair, .....					
Worn out, .....					

Number of Cars owned by the Company, January 1, 1859, . . . .	565
First class 8 wheel passenger cars in good repair, . . . .	17
"    "    "    "    wanting    "    . . . .	0
Second "    "    "    "    in good repair, . . . .	0
"    "    "    "    wanting repair, . . . .	0
Baggage, express and mail cars in good repair, . . . .	8
"    "    "    cars wanting repair, . . . .	0
Platform, covered freight, and cattle 8 wheel cars, in good repair, . . . .	534
Covered freight and cattle 8 wheel cars wanting repair, . . . .	6
Platform 8 wheel cars, in good repair, . . . .	
Other freight cars, . . . .	
Gravel cars, . . . .	
	} included with above.

## TABLE F.

## BUSINESS OF THE YEAR.

Miles run by passenger trains,.....	145,500
"    "    freight    "    .....	284,159
"    "    gravel and construction trains,.....	208,765
"    "    wood trains,.....	
Number of passengers carried in cars, .....	127,381
"    "    miles traveled by passengers,.....	
"    "    tons of freight carried in cars, .....	189,812
Average rate of speed of ordinary passenger trains, in- cluding stops, .....	22 miles.
Rate of speed of same when in motion,.....	25 "
Average rate of speed of express trains, including stops,.....	27 "
Rate of speed when the same are in motion,.....	30 "
Average rate of speed of freight trains, including stops,.....	10 "
Rate of speed when the same are in motion,.....	12 "
Rate of fare charged first class through passengers, per mile,.....	2 3-4 cts.
Rate of fare charged first class way passengers, per mile, .....	3 cts.

## TABLE G.

## EXPENSES OF MAINTAINING ROADWAY AND REAL ESTATE,

For the year ending	18
Ordinary repairs of road bed and railway,.....	\$
Extraordinary repairs of road bed and railway, including widening cuts and embankments, rebuilding and repairing masonry, ballasting, &c.,.....	
Cost of iron rails used in repairs, including chairs and spikes, and cost of laying down,.....	
Cost of repairs of iron rails,.....	
Number and kind of cross ties used for renewals,.....	
Cost of the same, including the expense of laying down,.....	
Insurance and taxes on real estate, .....	
Repairs of bridges, .....	
"    " stations, .....	
"    " fences, .....	
"    " masonry, .....	
Total,.....	
Books so kept, cannot be answered in detail.	

## COST OF REPAIRS OF MACHINERY.

Repairs of engines and tenders,.....	
Depreciation of the same,.....	
Repairs of passenger and baggage cars,.....	
Depreciation of the same, .....	
Repairs of freight cars, .....	
Depreciation of the same,.....	
Repairs of tools and machinery in shops,.....	
Oil used about workshops,.....	
Fuel and waste, .....	
Clerks .....	

Other items in detail as follows :

Total, .....	
Books so kept, cannot be particularly answered.	

## TABLE H.

## COST OF OPERATING THE ROAD.

For the year ending,	18
Fuel, including cost of preparing the same,.....	
Number of cords of wood used by locomotives,.....	
Number of cords of wood used at stations,.....	
Number of cords lost by fire, .....	
Number of gallons of oil,.....	
Number of pounds of waste,.....	
Cost of oil and waste for engines and tenders.....	
"    "    "    " passenger and baggage cars	
"    "    "    " freight cars, .....	
Loss and damage of goods, .....	
"    "    ".....	
Damages for injuries to persons,.....	
Damages to property, including fire, and animals killed on the road.....	
Office expenses and stationery.....	
Agents .....	
Clerks,.....	
Labor, loading and unloading freight,.....	
Porters and watchmen,.....	
Switchmen,.....	
Wood and water station attendance,.....	
Conductors and baggage men, .....	
Brakemen, .....	
Enginemen and firemen, .....	
For salaries of Trustees, President, Directors, Secretary, Treasurer and Superintendent, .....	
For printing, stationery and office expenses,.....	
" law expenses, .....	
Books not classified to conform to above table, answers cannot be given.	

## RECAPITULATION OF EXPENSES.

Maintaining roadway, .....	
Repairs of machinery,.....	
Operating, .....	
Total,.....	\$441,591 90

TABLE I.

## EARNINGS, RECEIPTS AND PAYMENTS.

*Earnings.*

From passengers,.....	\$125,949 90	1-2
From freight, .....	379,961 66	1-2
From other sources,.....	18,628	35

## VALUE OF MATERIALS ON HAND.

Wood, cords of.....	
Oil, gallons of,.....	
Iron rails, tons of old,.....	
"    "    "    new,.....	
Chairs, pounds of, .....	
Spikes, pounds of, .....	
Ties, number of,.....	
Iron and other metals unwrought, .....	
"    "    "    worked and partly worked,....	
Lumber,.....	
Stores,.....	\$52,250 76
Fuel,.....	26,526 20

## TABLE J.

## ACCIDENTS.

The number of persons injured in life or limb, and the cause thereof, and whether passengers or persons employed.

Whether any such accidents have arisen from carelessness or negligence of any person in the employment of the corporation, and whether such person is retained in the service of the corporation.

	EMPLOYEES.		OTHERS.	
	Killed.	Inj'red.	Killed.	Injured.
Trains thrown from the track,.....		1		1
Struck by bridge, while on top of freight car, .....				
Run over while on track,.....			1	.
Injured at road crossing,.....				
Total, .....				
Total number of persons killed.....				
"      "      "      "      injured, but not killed,.....				

In addition to which must be given a statement of the date of each accident, the place where it occurred, the train, the cause and the extent of the injuries inflicted upon each persons, and the name of such persons, as follows:

**Jan. 5th, 1858.**—Bartley Conley, an Engine cleaner, at Northumberland, got upon the front part of an engine used on Wood train, *unknown* to the driver. The Engine was started for the purpose of attaching to the train. When at a proper distance the steam was shut off and Engine reversed, but did not hold, and the man was crushed, breaking his leg. He refused to have his leg amputated and bled to death.

**May 18, 1858.**—John Lucus, laborer in Wood shed at Bethel in attempting to jump on the train while in motion, fell upon track, and had leg broken, rendering amputation necessary.

July 20, 1858.—Jacob H. Nichols, Engine Driver, was scalded slightly on the leg,—his Engine being thrown from the track by the breaking of one of the truck wheels of the engine; and at the same time Mr. Scamman, attached to the Express Co., was slightly injured on the head, the car being thrown from the track.

Oct. 7, 1858.—A colored boy, by name of Bradley, in attempting to jump on to a box car while in motion, at the Depot Grounds, Portland, fell upon the track, and had his foot crushed, rendering amputation necessary.

Oct. 22, 1858.—A Mr. Chase while walking on the track between Northumberland and Stratford Hollow was run over by a gravel train, and instantly killed. The whistle was sounded and brakes applied, but without effect. He was about 80 years of age, and almost an idiot.

Nov. 6, 1858.—Daniel C. Heseltine, Engine Driver, while running special Freight train, in the night time, was killed by jumping or being thrown from the engine. The Engine was thrown from the track by a slide of earth on the rail, during the night and after the passage of the previous train.

## TABLE K.

## EMPLOYEES AND COMPENSATION.

1 Superintendent, .....	\$1,800	per annum.
1 Freight Agent, .....	1,200	"
1 General Superintendent Bridges, Buildings, Wharves, &c , .....	1,200	"

## ANNUAL REPORT

OF THE VERMONT & MASSACHUSETTS RAILROAD COMPANY FOR THE YEAR  
ENDING ————— 1859.

### ANSWERS TO QUESTIONS OF COMMISSIONER.

ANSWER TO QUESTION 1.—None whatever.

ANSWER TO QUESTION 2.—See Report annexed.

ANSWER TO QUESTION 3.—D. Kellogg, .....	\$26 00
Keyes & Howe,.....	34 45
A. Keyes,.....	20 50

ANSWER TO QUESTION 4.—None.

ANSWER TO QUESTION 5.—No.

ANSWER TO QUESTION 6.—Yes.

ANSWER TO QUESTION 7.—Professional engineers are employed when necessary and their advice is followed.

ANSWER TO QUESTION 8.—The track is inspected before any train passes, by section men, who are kept constantly on the road through the day.

ANSWER TO QUESTION 9.—None besides the ordinary repairs.

ANSWER TO QUESTION 10.—President, Superintendent and Directors of Railroads, in vicinity. Conductors have no discretion in the matter except in cases of charity.

ANSWER TO QUESTION 13.—Always made.

**ANSWER TO QUESTION 14.**—Independently, but we should wait ten or fifteen minutes for a backward train from a connecting road.

**ANSWER TO QUESTION 15.**—Not always.

**ANSWER TO QUESTION 16.**—Yes.

**ANSWER TO QUESTION 17.**—No.

**ANSWER TO QUESTION 18.**—No.

## TABLE A.

## STOCK AND DEBTS.

Twenty-eight thousand eighthundred and one shares of stock issued.  
Funded debt \$1,003,800.

## TABLE B.

## COST OF CONSTRUCTION.

For graduation and maonry by last report,.....	\$1,461,323	12

## TABLE G.

## EXPENSES OF MAINTAINING ROADWAY AND REAL ESTATE.

For the year ending Nov. 30, 1857.

Ordinary repairs of road bed and railway,.....	\$25,774	72
Extraordinary repairs of road bed and railway, including widening cuts and embankments, rebuilding and re- pairing masonry, ballasting, &c., .....		
Cost of iron rails used in repairs, (cost of laying down, included elsewhere,) .....	10,902	65
Cost of repairs of iron rails, .....		
Number and kind of cross ties used for renewals, ..... Chestnut.		
Cost of the same, including the expense of laying down, elsewhere.		
Insurance and taxes on real estate, .....	3,221	62
Repairs of bridges, .....	3,464	50
"    " stations, .....	3,498	04
"    " fences,.....		
"    " masonry, .....		
Total, .....	\$47,424	47

## COST OF REPAIRS OF MACHINERY.

Repairs of engines and tenders, .....	10,375	19
Depreciation of the same, .....		
Repairs of passenger and baggage cars, .....	3,223	74
Depreciation of the same, .....		
Repairs of freight cars, .....	6,801	74
Depreciation of the same, .....		
Repairs of gravel and other cars,.....	287	85
Oil used about workshops, .....		
Fuel and waste, .....		
Clerks, .....		
Other items in detail as follows :		
Total,.....	\$20,688	52

## TABLE H.

## COST OF OPERATING THE ROAD.

For the year ending Nov. 30, 1858.

Fuel, including cost of preparing the same,.....	\$12,194 77
Number of cords of wood used by locomotives,..	3666
Number of cords of wood used at stations, .....	
Number of cords lost by fire, .....	
Number of gallons of oil,.....	
Number of pounds of waste, .....	
Cost of oil and waste for engines and tenders.....	
"    "    "    "    passenger and baggage cars	2,164 10
"    "    "    "    freight cars, .....	
Loss and damage of goods, .....	
"    "    "    baggage, .....	
Damages for injuries to persons,.....	
Damages to property, including fire, and animals killed on the road.....	1,403 10
Office expenses and stationery.....	
Agents.....	
Clerks,.....	
Labor, loading and unloading freight,.....	
Porters and watchmen,.....	
Switchmen,.....	2,149 68
Wood and water station attendance,.....	
Conductors and baggage men, .....	
Brakemen, .....	
Enginemen and firemen, .....	
For salaries of Trustees, President, Directors, Secre- tary, Treasurer, Superintendent, and Clerks.....	6,840 00
For printing, stationery and office expenses,.....	
"    law    "    .....	
Other expenses in detail as follows :	
Removing ice and snow, .....	142 98
Pay rolls, wages and incidental expenses, chargeable to passenger department, .....	10,691 34
Pay rolls, wages and incidental expenses, chargeable to freight department, .....	12,985 26

Paid Conn. River R. R. rent for use of their Road,..	1,504	19
All other expenses not included in the foregoing items,	1,854	10
Total,.....	51,929	50

## RECAPITULATION OF EXPENSES.

Maintaining roadway,.....	47,424	47
Repairs of machinery,.....	20,688	52
Operating,.....	51,929	50
Total,.....	\$120,042	47

JOHN ROGERS, *Treasurer.*

O. T. RUGGLES, *Superintendent.*

B. D. LOCKE, *Clerk of Corporation.*

B. N. BULLOCK, *Clerk.*

WM. H. MINOT, Jr., }  
J. C. HOWE, }  
J. H. WILKINS, } *Trustees.*

## SALARIES.

President, . . . . .	\$1,500
Superintendent, . . . . .	1,500
Treasurer, . . . . .	300
Clerk of Company and Treas. Clerk, . . . . .	1,200
Clerk, . . . . .	840
Trustees, each, . . . . .	300 100, 100

STATE OF MASSACHUSETTS:

Subscribed and sworn to before me this fourteenth, day of September, 1859.

EDW'D. G. LUCAS,

*Justice of the Peace for Middlesex Co.*

STATE OF MASSACHUSETTS, }  
SUFFOLK COUNTY, ss. }

BOSTON, September 14, 1859.

Then personally appeared the above named Thomas Whittemore, and made oath that the foregoing Report by him subscribed, is true according to his best knowledge, information and belief.

{ SEAL. }

Before me,  
BENJAMIN H. CURRIER,  
*Vermont Commissioner.*

## F. ANNUAL REPORT

OF THE VERMONT VALLEY RAILROAD COMPANY FOR THE YEAR ENDING  
AUGUST 31, 1859.

---

### ANSWERS TO QUESTIONS OF COMMISSIONER.

ANSWER TO QUESTION 1.—None.

ANSWER TO QUESTION 2.—See Report.

ANSWER TO QUESTION 3.—See Report.

ANSWER TO QUESTION 4.—None.

ANSWER TO QUESTION 5.—No.

ANSWER TO QUESTION 6.—Yes.

ANSWER TO QUESTION 7.—All necessary repairs have been  
promptly made.

ANSWER TO QUESTION 8.—Is inspected each morning by foreman  
of division.

ANSWER TO QUESTION 9.—None.

ANSWER TO QUESTION 10.—Officers of other Roads. Conductor  
has no power.

ANSWER TO QUESTION 13.—Have always made time table con-  
nections.

ANSWER TO QUESTION 14.—Yes.

## TABLE A.

## STOCK AND DEBTS.

1. The amount of capital stock as by charter,.....\$500,000  
[with right to increase.
2. " " " subscribed, .....\$535,000
3. " " " paid in as by last report,\$515,663 82
4. " " " now paid in, .....\$516,163 82

## TABLE B.

## COST OF CONSTRUCTION.

For graduation and masonry by last report,.....		The road was built by contract in gross, including every thing here specified except land damages, fences and preliminary surveys,...
Amount now expended for the same,.....		
Amount for bridges by last report,.....		
Now expended for the same,.....		
Amount for superstructure, including iron, by last report, .....		
Total amount now expended for the same, .....		
For passenger and freight stations, buildings, and fixtures, by last report, .....		
Amount now expended for the same, .....		
For engine and car houses, machine shops, machinery and fixtures, by last report,.....		
Amount now expended for the same,.....		
For land, land damages and fences, by last report,.....	69,741 89	
Amount now expended for the same, .....		
For engineering by last report,.....	758 39	70,495 28
Amount now expended for the same,.....		
Cross ties .....		
Laborers not included in engineering.....		
There has been expended which has passed to construction account in addition to the original contract of, \$800,000.		
For discount on \$293,000, 2d class bonds, payment of coupons over and above earnings, gravelling the road, &c.,.....	320,194 65	
Incidental expenses,.....	14,096 76	
Interest dividend on stock,.....	7,056 61	
New side track at Putney, .....	431 10	
<hr/>		
Total cost of road,.....	\$1,212,274 40	

## TABLE C.

## EQUIPMFNT.

For locomotive engines and fixtures, (including snow ploughs,) by last report.....	\$37,520 00
Amount now expended for the same, .....	37,520 00
For passenger and baggage cars, by last report,....	11,300 00
Amount now expended for the same, .....	11,300 00
For freight cars, by last report, .....	36,371 79
Amount now expended for the same, .....	36,371 79
Gravel cars, by last report,.....	
Amount now expended for the same, .....	
Hand cars and repair car, by last report,.....	420 00
Amount now expended for the same,.....	420 00
Tools, &c.,.....	
Machinery used in repairs,.....	4,000 00
Total cost of equipment,.....	\$89,611 79
Total cost of road and equipment, .....	\$1,301,886 19

## TABLE D.

## ESTIMATED VALUE OF THE PROPERTY OF THE COMPANY.

## TABLE E.

## CHARACTERISTICS OF ROAD.

Length of road, .....	23 69-100 miles.
"    "    completed, .....	23 69-100 miles.
"    "    side tracks,.....	3393 feet.
Weight of rail per yard,.....	57 lbs
Width of earth cuts at grade,.....	20 feet.
"    rock    "    "    ".....	16    "
Slope of earth cuts,.....	1 ft. to 1
"    rock    ".....	
Width of embankments at grade,.....	16 feet.
Number of locomotive engine houses and shops,.....	1
"    "    "    engines,.....	4
"    passenger cars, .....	4
"    baggage, express and mail cars,.....	2
"    freight cars,.....	52

## CHARACTER AND LENGTH OF BRIDGING.

	No. of Structures.	No. of Spans.	Length of bridging in feet.
Trestle bridging,.....	2	10	100
Truss bridging, 50 feet span and under,.....	2	1	45
Truss do. from 50 to 100 ft. span, Truss do. from 100 to 150 feet span,.....	1	1	116
Truss do. 150 feet span and over.	2	6	513
<b>Totals,.....</b>			
Number of road crossings at grade,.....			11
“ “ “ above and below grade,.....			3
“ “ of cross ties per mile,.....			2000
Average length and size of cross ties,.....		7 ft. long, 6 by 6 in.	
Kind of timber used for cross ties,.....			Chestnut
Chairs—number per mile,.....			586.
Wrought or cast iron,.....			Cast.
Average weight of cast iron chairs,.....			
“ “ “ wrought iron chairs,.....			
Whole number of single switches on main track,.....			
Kind of switches used,.....			

## GRADIENTS AND ALIGNMENT.

Level, number of miles, .....	7	61-100
From 20 to 90 feet, number of miles, .....	7	63-100
" 30 to 40 " " " .....	5	60-100
From 40 to 50 " " " .....		
From 50 to 60 " " " .....		
From 60 to 70 " " " .....		
Maximum grade, .....		32 feet.
Amount of straight line miles, .....	10	72-100
" curved " " " .....	12	97 100
Maximum radius, .....		872 feet.
Minimum " .....		600 feet.
Sum of ascents going in one direction, .....		
Sum of ascents going opposite direction, .....		

## BUILDINGS AND FIXTURES.

Passenger houses, .....	4
Freight houses, .....	4
Engine houses, .....	1
Repair shop, .....	1
Water stations, .....	2
Dwellings, .....	none.
Wood sheds, .....	3
Turn tables, .....	none.

## Other buildings, as follows:

One new building added in 1857 for passenger cars, say, .....	400
Addditions in 1858, .....	170
" " 1859. .....	46 25
Total, .....	\$616 25

## EQUIPMENT.

Number of Locomotives owned by the Company on the      day  
of      18      .....

	Under 16 tons.	16 to 20	20 to 25	25 to 30	30 tons and over.
In use in good repair,.....	2	1			
In use requiring slight repair,.....					
In use requiring heavy repair,.....					
Not in use in good repair,.....		1			
Not in use requiring slight repair,.....					
Not in use    "    heavy repair,.....					
Worn out,.....					

Number of Cars owned by the Company, August 31, 1859,...	
First class 8 wheel passenger cars in good repair,.....	3
"      "      "      " wanting " .....	1
Second "      "      "      " in good repair,.....	
"      "      "      " wanting repair, .....	
Baggage, express and mail cars in good repair, .....	2
"      "      " cars wanting repair,.....	
Covered freight, and cattle 8 wheel cars, in good repair,.....	31
Covered freight and cattle 8 wheel cars wanting repair, .....	
Platform 8 wheel cars, in good repair, .....	20
Other freight cars, .....	
Gravel cars, .....	

TABLE F.

## BUSINESS OF THE YEAR.

Miles run by passenger trains,.....	31,690
"    "    freight    ".....	16,070
"    "    gravel and construction trains,.....	
"    "    wood trains,.....	3,595
Number of passengers carried in cars,.....	31,240
"    "    miles traveled by passengers,.....	626,387
"    "    tons of freight carried in cars one mile,.....	627,307
Average rate of speed of ordinary passenger trains, including stops,.....	26 miles.
Rate of speed of same when in motion,.....	28 "
Average rate of speed of express trains, including stops,.....	
Rate of speed when the same are in motion,.....	
Average rate of speed of freight trains, including stops,.....	12 "
Rate of speed when the same are in motion,.....	15 "
Rate of fare charged first class through passengers, per mile,.....	3 2-10 cts.
Rate of fare charged first class way passengers, per mile,.....	3 4-10 cts.
Average rate of fare charged second class passengers, per mile,.....	2 7-10.
Rate per ton per mile charged on 1st class through freight,.....	4cts.
"    "    "    "    2d    "    "    "    3cts.	
"    "    "    "    3d    "    "    "    2 1-2 cts.	
"    "    "    "    special    "    "    "    6 cts.	
"    "    "    "    1st way    "    "    "    8 cts.	
"    "    "    "    special    "    "    "    11 cts.	
"    "    "    "    3d    "    "    "    "	
"    "    "    "    4th    "    "    "    "	

## TABLE G.

## EXPENSES OF MAINTAINING ROADWAY AND REAL ESTATE,

For the year ending August 31, 1859.

Ordinary repairs of road bed and railway, .....	\$8,710 03
Extraordinary repairs of road bed and railway, includ- ing widening cuts and embankments, rebuilding and repairing masonry, ballasting, &c.,.....	
Cost of iron rails used in repairs, (chairs and spikes, and cost of laying down, are included in ordinary re- pairs,).....	3,570 00
Cost of repairs of iron rails,.....	1,315 80
Number and kind of cross ties used for renewals, chesnut, .....	7091
Cost of the same, (the expense of laying down is in- cluded in ordinary repairs,).....	1,638 94
Insurance and taxes on real estate, .....	531 37
Repairs of bridges, .....	
"    " stations, .....	
"    " fences, .....	
"    " masonry, .....	
Total,.....	\$15,766 14

## COST OF REPAIRS OF MACHINERY.

Repairs of engines and tenders,.....	3,343 93
Depreciation of the same,.....	
Repairs of passenger and baggage cars,.....	1,000 99

I, Madison Sloat, depose and say that the facts set forth, and statements made in the foregoing report, which has been signed by me, are true and correct according to the best of my knowledge, information and belief.

MADISON SLOAT,  
*Superintendent.*

Subscribed and sworn before to me this 19th day of September, 1859.

ALEXANDER S. CAMPBELL, *Notary Public.*

G.  
ANNUAL REPORT.

OF THE RUTLAND AND BURLINGTON RAILROAD COMPANY FOR THE  
YEAR ENDING AUGUST 31ST. 1859.

ANSWERS TO THE QUESTIONS OF COMMISSIONER.

ANSWER TO QUESTION 1.—James Cheever has been appointed Trustee under the first mortgage, in place of Ellis Gray Loring, deceased. In Sept. 1858, John A. Conant, H. E. Stoughton and E. A. Chapin, were chosen Directors in place of Paris Fletcher, A. Wentworth, Jr., and B. T. Read.

ANSWER TO QUESTION 2.—See Report herewith Tables A. to K. inclusive. The services and of the nature indicated in table K. have been faithfully performed, and we believe the rates of compensation do not exceed that usually allowed by solvent Railroad Companies in New England.

ANSWER TO QUESTION 3.—There has been paid to Legal advisers and attorneys since date of last report, \$3,204,39, and for general services, \$1,033,25, also for salaries of Trustees under the 1st, 2nd and 3rd mortgages, Superintendent and Treasurer, \$7,300.

ANSWER TO QUESTION 4.—There has not

ANSWER TO QUESTION 5.—We do not.

ANSWER TO QUESTION 6.—They have.

ANSWER TO QUESTION 7.—The track, bridges and all equipment<sup>s</sup> are constantly under the supervision of experienced and reliable men.

The track is under the immediate supervision of J. F. Stinson, road master, and O. Wooster, assistant, who is a professional engineer, and all renewals and repairs recommended by them have been promptly made.

ANSWER TO QUESTION 8.—The track is carefully inspected by competent and experienced men each morning before the passage of trains, and as often through the day as occasion or circumstances may require to know that track is in proper order for the safe passage of trains.

ANSWER TO QUESTION 9.—There are no important repairs contracted for or needed. We are continually replacing wooden trestle work with substantial masonry and making such repairs and renewals as to keep the road and its rolling stock, &c., in thorough repair.

ANSWER TO QUESTION 10.—Officers and Managers of connecting roads and of roads with which we do a joint business. Conductors are not permitted to pass persons not having a written pass, except objects of charity.

ANSWER TO QUESTION 13.—They have run with great regularity.

ANSWER TO QUESTION 14.—Our road is operated independently of any other. The mail train each way is run through without change of cars between Boston and Burlington, and if that train is delayed on connecting roads, we wait for it, but have no contract or arrangement by which we are obliged to do so.

ANSWER TO QUESTION 15.—Vermont Companies, connecting with our road, have manifested a commendable and praiseworthy willingness to run trains at hours to connect with our road in a manner advantageous to the Public, and our arrangements with them have been harmonious and mutually convenient to both roads.

ANSWER TO QUESTION 16.—They have.

ANSWER TO QUESTION 17.—No.

ANSWER TO QUESTION 18.—None.

## ESTIMATED VALUE OF THE PROPERTY OF THE COMPANY.

TABLE E.

#### CHARACTERISTICS OF ROAD.

Length of road,.....	62 miles.
"    "    completed,.....	"    "
"    "    side tracks,.....	3 $\frac{34}{100}$
Weight of rail per yard,.....	58 to 61 lbs.
Width of earth cuts at grade,.....	22 feet.
"    of rock    "    "    ".....	
Slope of earth cuts,.....	1 to 1 1-2    "
"    of rock    "    ".....	
Width of embankments at grade,.....	15 feet.
Number of locomotive engine houses and shops,.....	4
"    "    engines,.....	10
"    passenger cars,.....	6
"    baggage, express and mail cars,.....	2
"    freight cars,.....	198

## CHARACTER AND LENGTH OF BRIDGING.

	No. of Structures.	No. of Spans.	Length of bridging in feet.
Trestle bridging,.....	2	18	351
Truss bridging, 50 feet span and under,.....	7	7	320
Truss do. from 50 to 100 ft. span, .....	9	9	559
Truss do. from 100 to 150 ft. span, .....	3	3	358
Truss do. 150 ft. span & over, }.....	8	12	1661
Draw bridges,.....	none.		
<b>Totals,.....</b>	<b>29</b>	<b>49</b>	<b>3249</b>

Number of road crossings at grade,.....	58
"      "      "      above and below grade,.....	3
Number of cross ties per mile,.....	2051
Average length and size of cross ties,....7 to 7 1-2 ft. long 6 by 8 in.	
Kind of timber used for cross ties,..Chestnut, Oak, Ash, Tamarack	
Chairs—number per mile, .....	586
Wrought or cast iron, .....	cast.
Average weight of cast iron chairs,.....	17 lbs.
"      "      " wrought iron chairs, .....	
Whole number of single switches on main track,.....	36
Kind of switches used, .....	lever.

## BUILDINGS AND FIXTURES.

Passenger houses,.....	12
Freight houses,.....	12
Engine houses,.....	4
Repair shop, .....	2
Water stations,.....	7
Dwellings, .....	2
Wood sheds,.....	7
Turn tables,.....	3

## EQUIPMENT.

Number of Locomotives owned by the Company on the day  
of 18

	Under 16 tons.	16 to 20 tons.	20 to 25 tons.	25 to 30 tons.	30 Tons and over.
In use in good repair,.....		4	3		
In use requiring slight repair,.....			1	1	
In use requiring heavy repair,.....		1			
Not in use in good repair,.....					
Not in use requiring slight repair,.....			1		
Not in use requiring heavy repair,.....					
Worn out,.....					

Number of Cars owned by the Company, Sept. 1, 1859.

First class 8 wheel passenger cars in good repair,.....	5
“ “ “ “ wanting repair, .....	1
Second “ “ “ in good repair,.....	0
“ “ “ “ wanting repair, .....	0
Baggage, express and mail cars in good repair, .....	2
“ “ “ “ wanting repair, .....	0
Covered freight and cattle 8 wheel cars, in good repair,.....	120
“ “ “ “ “ wanting repair, .....	11
Platform 8 wheel cars, in good repair, .....	55
“ “ “ “ wanting .....	12
Other freight cars, .....	0
Gravel cars,.....	0

## TABLE F.

## BUSINESS OF THE YEAR.

Miles run by passenger trains, .....	90,543
"    "    freight    "    .....	79,816
"    "    gravel and construction trains,.....	1,188
"    "    wood trains,.....	4,283
Number of passengers carried in cars, .....	93,139
"    "    miles traveled by passengers,.....	2,226,245
"    "    tons of freight carried in cars one mile,.....	2,377,232
Average rate of speed of ordinary passenger trains, including stops, .....	23 miles per hour.
Rate of speed of same when in motion, .....	25 "    "    "
Average rate of speed of express trains, including stops, .....	} none run.
Rate of speed when the same are in motion, .....	}
Average rate of speed of freight trains, in- cluding stops, .....	8 miles per hour
Rate of speed when the same are in motion, .....	12 "    "    "
Rate of fare charged first class through pas- sengers, per mile,.....	2 1-2 cts.
Rate of fare charged first class way passengers, per mile, .....	3 1-2
Average rate of fare charged second class passengers, per mile, .....	none.
Rate per ton per mile charged on 1st class through freight, ..	3 cts.
"    "    "    "    2d    "    "    "    "    2 1-2cts	
"    "    "    "    3d    "    "    "    "    2 cts.	
"    "    "    "    4th    "    "    "    "    none.

## TABLE J.

## ACCIDENTS.

The number of persons injured in life or limb, and the cause thereof, and whether passengers or persons employed.

Whether any such accidents have arisen from carelessness or negligence of any person in the employment of the corporation, and whether such person is retained in the service of the corporation.

	EMPLOYEES.	OTHERS.
	Killed. Inj'red.	Killed. Injured.
Trains thrown from the track, . . . . .		
Struck by bridge, while on top of freight car, . . . . .		
Run over while on track, . . . . .		2
Injured at road crossing, . . . . .		
<b>Total, . . . . .</b>		
Total number of persons killed. . . . .		2.
"    "    "    "    injured, but not killed, . . . . .		

In addition to which must be given a statement of the date of each accident, the place where it occurred, the train, the cause and the extent of the injuries inflicted upon each person, and the name of such person, as follows:

The train was thrown from the track in the night near Pawlet station, and when running at a low rate of speed. It was caused by the wilful displacement of a rail.

One person was killed while lying upon the track near West Rutland. It was in the night and the person was supposed to be intoxicated.

One other person was killed at West Rutland, when carelessly walking upon the side track as the train was backing.

## ANNUAL REPORT

OF THE RUTLAND AND WHITERALL RAILROAD COMPANY.

*To Hon. George P. Marsh, Railroad Commissioner :*

DEAR SIR :—There has been no change in the officers, management as to running cars, nor in any of the modes of operating the Rutland and Whitehall Railroad, since the date of the last Report of this Company.

The Road is in the hands and under the entire control of the Saratoga & Whitehall Railroad Company, who operate the same under a permanent lease, in connection with their road in the State of New York, and we can only say, that the lessees have punctually paid the rents stipulated in said lease and have operated the road of this Company, during the last year, to the satisfaction of the travelling and business public.

No accidents to the knowledge of the Directors of this Company, have occurred within the year, and the trains have been regularly run and have generally made satisfactory connections at Castleton with the Rutland and Washington train. Some embarrassment inevitably attend this connection and the travel and business upon this road is and ever will be subject to occasional interruption while this road is kept dependent upon the Rutland and Washington Road for reaching an eastern market. We are informed and believe that the track of this road is carefully inspected before the running of passenger trains every day ; but we have not the power or the means of answering the several pecuniary questions either affirmatively or negatively, except that this Company have fully maintained and kept up their organization agreeably to their charter in all respects.

In behalf and by direction of the Board of Directors,

WM. C. KITTREDGE, *Director of the  
Rutland and Whitehall Railroad Company.*

STATE OF VERMONT, }  
RUTLAND COUNTY, ss. }

I, Wm. C. Kittredge, one of the Directors of the Rutland and Whitehall Railroad Company on oath, depose and say that the facts set forth, and statements made in the foregoing report, which has been signed by me are true and correct according to the best of my knowledge, information and belief.      W. C. KITTREDGE.

Subscribed and sworn to before me this 10th day of October, 1859.

Signed,

H. G. WOOD, *Justice of the Peace.*
